Sports Without Borders!

Australian nationalism, for better and for worse, is inseparable from our love of sport.

The Tests, the Cup, the Open, the Grand Final – these events structure our year as much as the big religious festivals. Questions about Bradman turn up in citizenship exams. We've spent more on the Olympics than on the National Broadband Network. In this country, sports mean something.

From the top right down to the grassroots, we use sports to express our values. Those values have to come from all of us and speak to all of us. **They have to change with the times.**

We need to factor in 21st Century views of gender equality and cultural inclusion. We need to guard against old-fashioned myths and prejudices. We need to continually innovate to survive.

This conference will illuminate how sports are changing, how sports clubs are innovating, and how sports administrators, players, observers and volunteers can help shape the outcomes.

Key takeaways:

- In the digital age, how do you recruit and retain your volunteers?
- In a spectator-led age, how do you develop systems to engage members?
- What has to change before under-represented groups – women, people with disabilities, people from culturally and linguistically diverse communities, gay and lesbian people and Indigenous Australians – see your club as relevant to their lives?
- What partnerships are becoming possible with emerging stakeholders?
- Marketing: not just a good idea, it's the game.
- Learn from the professionals how to innovate – it'll push you ahead of the pack.

Why should I attend?

The **2013 Sports Without Borders Conference** brings together the complete picture – sportspeople, club officials, volunteers, policymakers, government funders, government and local government workers, peak bodies, sports administrators and sports media.

If you're from any of these groups, this conference is about you.

Learn the facts, hear the stories, and find out about best practice sports solutions. Your club, and your community, depend on it.

About Us

Sports Without Borders is a national not-for-profit organisation, auspiced by the Australian Multicultural Foundation (AMF) and dedicated to providing support for young people from migrant and refugee backgrounds who are involved in or want to get involved in sport.

Sport has played a vital role in multicultural Australia, empowering many newly arrived Australians to develop an identity and sense of active belonging. Sports Without Borders fosters this process by providing funding and services to young people from culturally and linguistically diverse backgrounds.

The Sports Without Borders Foundation aims to foster accessible, multilingual resources and services, (more) funding pathways, direct financial support, training/mentorship programs and sponsorship contacts to refugee and migrant communities by:

- Developing an understanding of the particular barriers to participation in sport experienced by refugee youth in Australian society;
- Developing and implementing innovative platforms and initiatives to help overcome those barriers by highlighting the messages and opportunities arising through sport;
- Developing linkages, associations and agreements with public, private and community organisations and funding bodies to increase support for these objectives;
- Raising community awareness of issues relevant to the activities of the Foundation;
- Facilitate peace building and humanitarian initiatives;
- Pursuing associated educational and research activities and opportunities;
- Providing support for and opportunities to students and academics studying and working in fields conducive to the attainment of these objectives.
- Creating, publishing and disseminating information in connection with these objectives;
- Soliciting grants, donations, gifts and bequests to the Foundation for the purpose of achieving the objectives.

Our Community is a world-leading social enterprise that provides advice, tools and training for Australia's 600,000 community groups and schools, and practical linkages between the community sector and the general public, business and government. Our major offerings include:
