PALSY

www.cpsn.info

Aerodynamically, a bumblebee's wings are too small for it to fly. But the bumblebee doesn't know it's impossible, so it flies anyway.

Like the bumblebee, individuals with **CEREBRAL PALSY** can accomplish and achieve many things that seem impossible - so help them fly!

YOU ARE INVITED TO:

CP Awareness Day

Wednesday 8th August 2007 11.30am - 2.30pm

Melbourne City Square
Cnr Collins & Swanston Sts

For more info or to be a volunteer on the day
phone: (03) 9300 3901
