Drought Relief Assistance Scheme (DRAS)

Funding Provider Department of Agriculture and Fisheries	Eligible to <ul style="list-style-type: none">✓ Business✓ Not-for-Profit✓ Individual	Funding Amount: \$0 to \$40,000 Total Pool: Undisclosed
Location QLD		Rounds Ongoing
Funding Type Grant G02987		
Primary Category Agriculture, Forestry & Fishing		

Purpose

The Queensland Government and Australian Government offer programs to help farm families, farm businesses and farm communities affected by drought.

Overview

In 2013, at the start of the current drought, the Queensland Government announced a package of drought assistance programs that adopted a whole-of-government approach. The government has committed to maintaining these programs until 2018. The estimated value of the Queensland drought assistance package over the next 4 years is \$52.1 million.

The Drought Relief Assistance Scheme (DRAS) provides 5 assistance measures.

Drought-declared properties may be eligible for:

- freight subsidies for transporting fodder
- freight subsidies for transporting water
- the EWIR (Emergency Water Infrastructure Rebate), which provides a rebate on the purchase and installation of water infrastructure purchased for animal welfare needs. (EWIR addresses immediate animal welfare needs, helps improve properties to be more drought resilient, and generally lifts productivity by providing water supply to areas where pasture was less than fully utilised.)

Properties that have had their drought declaration revoked may be eligible for:

- freight subsidies for transporting livestock returning from agistment
- freight subsidies for transporting livestock purchased for restocking.

DRAS generally provides a maximum of \$20,000 per property per financial year on all freight subsidy and rebate types. This may increase to \$30,000 with the approval of a drought management plan by DAF Extension staff. This can increase further up to \$40,000 in the third and later years of a drought declaration.

Producers in a drought-declared area or who have an individually droughted property (IDP) declaration can apply for DRAS support through DAF.
